

NEBS testing is required for vendors who wish to sell equipment to any of the Regional Bell Operating Companies (RBOC) and Competitive Local Exchange Carriers (CLEC).

G&M Compliance, Inc., along with our exclusive partnership with Garwood Laboratories, is dedicated to provide you with One-Stop-Shop NEBS testing and certification. We have the capabilities to perform NEBS Level 1, 2 or 3 requirements to GR-63-CORE for Physical Protection Standards and GR-1089-CORE for EMC, Surge & Electrical Safety Standards.

We are a Verizon-certified testing facility and qualified under Verizon's Independent Testing Laboratory (ITL) program as an approved vendor to provide full NEBS certification testing. In addition to testing for Verizon, we also provide complete NEBS testing for all other Telecom carriers, including SBC, according to each carrier's individual and specific requirements.

Although NEBS testing can be wide-ranging and meticulous, our experienced staff of engineers is here to provide you with assistance and direction to help guide you through the entire process more smoothly.

Safety

Service

Solution

It's Simple!

### Our main NEBS services include:

#### GR-1089-CORE for EMC, Surge, Lightning and Electrical Safety

- Pre-Compliance Evaluation & Analysis
- Electrostatic Discharge (ESD) Testing
- EMC Emissions and Immunity (10kHz - 10GHz) Testing
- Conducted Emissions Testing
- Conducted Immunity Testing
- Intra-Building Lightning Surge
- Electrical Safety Testing
- Leakage Current Testing
- DC Potential Testing
- 1st and 2nd Level Lightning and AC Power Fault Testing
- Bonding and Grounding Testing

#### GR-63-CORE for Physical and Environmental Protection

- Pre-Compliance Evaluation & Analysis
- Spatial Testing
- Low & High Thermal Shock Testing
- Humidity and Altitude Testing
- Thermal Shock Testing
- Thermal Operating Conditioning Testing
- Fire Resistance and Heat Dissipation Testing
- Seismic/Earthquake Vibration and Resistance Testing
- Airborne Contaminants Testing
- Transportation Vibration Testing
- Acoustic Noise Testing
- Illumination Testing
- Packaged/Unpackaged Drop Testing
- Hygroscopic Dust
- Mixed Flow Gas

If you are looking for a testing laboratory that can provide full NEBS testing, worldwide certification approvals and superior customer service-look no further!
