

Control, Measurement and Laboratory (CML)

Let G&M Compliance support your Compliance Certifications requirements for Control, Measurement and Laboratory Equipment!

G&M Compliance has many years of experience as well as industry knowledge in testing and certifying Control, Measurement and Laboratory equipment for domestic (e.g. UL, CSA) and global product safety and electromagnetic compatibility (EMC) certifications.

Before your products can be sold domestically or globally, it must demonstrate compliance with electrical safety standards. This mandatory process helps to ensure that your device poses no fire, shock, or overall safety hazards to the end user that comes in contact with your product.

Here are some of the standards that we test and certify to:

General Safety and EMC Standards:

- UL 61010-1, CSA C22.2 No. 61010-1, EN 61010-1 (Safety Standards)
- EN 61010-2-xx (European Product Specific Particular Standards)
- IEC 61010 (CB Scheme)
- FCC Part 18 (Class A or B)
- EN 61326-1 (European Emissions and Immunity)
- National Deviations for Global Approvals

Other Requirements:

- RoHS (European Restrictions of Hazardous Substances)
- China RoHS
- WEEE (European Waste & Recycling Directive)
- Energy Efficiency Requirements

If you are looking for a compliance laboratory that can provide you with global certifications for your Control, Measurement and Laboratory equipment, please visit our website or give us a call.
